

You research and compare your biggest purchases but not health care ... Until now!

The School District of Osceola County has hired MAP® to eliminate the guess work out of health care and get you the best care for the best medical outcome.

You may call **(844) 297-0747** and speak directly to a MAP® Nurse Advocate or get a *jump start* on your research by completing the Provider Review Form for each of your covered family members [HERE](#).

WHY SHOULD YOU & YOUR FAMILY TRUST MAP®?

- MAP® is independent of your insurance company, doctors, and medical facilities.
- Our only motivation in our recommendations is: Who has better quality? Who meets your needs? Which facilities are most cost effective?
- MAP® always works with the patient's best interest in mind.

WHAT ELSE DOES MAP® DO AND WHY?

- **Recommends Providers for the best outcome and the best benefit:** When you stay "In Network" you get higher benefits and a better value out of your health plan.
- **Physician Quality:** Physician's experience, training and background varies greatly! MAP® knows you want providers who have low complication & mortality rates, and that is who we recommend!
- **Physician Experience:** Not all providers have the experience you need. MAP® only recommends providers with above average experience, who also have low complication rates!
- **Examines Malpractice Info:** You do not want to use providers with significant malpractice and disciplinary issues. MAP® will not recommend these providers.
- **Verify Credentials:** MAP® explores education, licensing, and Board Certifications. MAP® knows you want to use credible, clear licensed, Board Certified providers.
- **Check Availability:** We call the provider's office to make sure they are accepting new patients within YOUR time frame.
- **Medical Alternatives:** Providers do not always make your alternatives known. MAP® will help educate you on available alternatives which you should discuss with your providers.
- **Pre-Appointment Questions:** When you know what to ask, you have better information to make educated choices for you & your family. MAP® provides suggested questions to help you interact with your provider.
- **Second Opinion Assistance:** If you or your family member receives a serious diagnosis or requires surgery, a second opinion may save your life!

**Call and speak to a MAP® a Nurse Advocate at (844) 297-0747.
Monday – Friday, 8:30am – 6:00pm EST**
